WORK EXPERIENCE

Dayout, United States — Backend Developer (*Laravel*)

June 2024 - PRESENT

- Collaborated in a team of 3 backend developers to deliver robust solutions.
- Created a comprehensive Push Notification Service, including the design and implementation of 3 related endpoints.
- Conducted a detailed research study on the pros and cons of Laravel Eloquent Model versus raw SQL, which led to the adoption of Eloquent by the company. Subsequently, created all necessary database migrations from scratch and played a key role in refactoring the codebase to utilize Dependency Injections and Laravel Models.
- Bootstrapped the unit testing framework for the codebase using PHPUnit, ensuring robust and reliable code quality.
- Contributed to the OpenAPI documentation, enhancing the resources available for developers and users.

Africred, Nigeria — Backend Developer (*Laravel*)

FEB 2025 - SEPTEMBER 2025

- Collaborated in a team of 3 developers to deliver robust solutions.
- Contributed to the structure of the company CRM app.
- Setup an official Whatsapp helpline for the company.
- Collaborated to create webhooks for importing prospective client datas into the company database for proper sales follow up.

Televerse, Nigeria — Backend Developer (*NestJs, GraphQL*)

April 2023 - June 2024

- Developed optimized search APIs for various backend functionalities in the ReachMe app using NestJS, GraphQL, MongoDB, Redis, and RabbitMQ, ensuring high-performance data retrieval.
- Designed and implemented a simulated payment API with GraphQL, along with secure coin gifting endpoints, enhancing the platform's transaction capabilities.
